### Relevant Work Experience:

Narendra Rao has created a complete club and district management tool - www.rotaryindia.org. It manages communication, E-governance, Public Image for Club, District & a consolidated output for the entire country India - covering 39 districts. This tool is also linked with a closed group mobile application which can be used by only Rotarians of India with proper authentication This integrated tool has One entry - multiple destination features. When a club admin adds a project, it is automatically added to the club website, district website, rotaryindia.org website and the data is also available for club's monthly report, Governor's visit and documentation etc. Every club leader, AG, DG, RI director gets the report of the projects done, meetings, attendance, membership change as per their hierarchy every 15 days A club leader, DG & RI Director can communicate directly with clubs.

### What you hope to accomplish:

His technical know-how will help in building a better platform to know the great work done by rotary across the globe. He can also help in creating Public Image, E-governance and structured communication tool within the organization. His experience in managing more than 170,000 Rotarians from approx 4,500 clubs in India can be put to better usage when it comes to global implementation. As he is also an official licensee for Rotary International will be an added advantage.
